

## RATING PROCEDURE FOR LOCAL PLAYERS

~~10-10-18~~ 7-19-19

### PRE-DRAFT:

The full Board will provide a **BOD rating for all players**: #1 (highest), #2, #3, #4, #5, or #6. The **BOD rating** may be used as an aid by the managers during the player draft.

For draft purposes, managers will be placed in the round determined by doubling their **BOD rating**. e.g. a #1-rated manager will be placed in round 2 of the draft, a #2-rated manager in round 4, . . . ., and a #6-rated manager in round 12.

### DRAFT:

The **Draft rating** for a full-time (non-manager) player will be determined by the round in which he is drafted e.g. A player drafted in rounds 1 or 2 will be rated a #1, rounds 3 or 4 a #2. . . ., and rounds 11 or 12 a #6.

### PICKING UP PLAYERS:

When “picking up” a player for a game, a manager can pick up a player whose **BOD rating** is equal to or lower than the **Draft rating** of the missing player. Exception: A #5 can be “picked up” for a #6. e.g. A manager who is missing a player **draft-rated** a #3 can only pick up a player **BOD-rated** #3-6. A manager who is missing a player **draft-rated** a #1 can pick up a player **BOD-rated** #1-6.

### PICKING UP/SUBSTITUTING FOR POST-DRAFT PLAYERS FOR GAMES:

“New Player” is defined as a full-time player coming into the league after the draft has been completed. The **BOD rating** for all New Players will be set by the Board.

#### New Player Assigned to a Team to Fill an Unfilled Draft Roster Opening:

The new player’s **BOD rating** will be set by the Board.

When the new player misses a game, his manager can only “pick up” a **BOD-rated** #5 or #6 since the new player’s **Draft rating** is considered a #6 for “pickup” purposes.

However, the new player can be “picked up” by another team for a missing player based on the new player’s **BOD rating** and the **Draft rating** of the missing player on the other team.

e.g. If a missing player is **draft-rated** a #3, a new player must be **BOD-rated** #3-6 to be “picked up”.

#### New Player Assigned to a Team to Replace a Player Who Left the Team/League:

The new player’s **BOD rating** will be set by the Board.

When the new player who was added to the team is missing, his manager can only “pick up” another player based on the **Draft rating** of the player who the new player replaced on the team.

e.g. If a missing new player is **BOD-rated** a #2 but the player who left the team was **draft-rated** a #3, the manager can only “pick up” a player **BOD-rated** #3-6 for the missing new player.

However, the new player can be “picked up” by another team for a game based on the new player’s **BOD rating** and the **Draft rating** of the missing player on that team.

e.g. If the missing player is **draft-rated** a #3, a new player **BOD-rated** #3-6 can be “picked up.”

If the missing player is **draft-rated** a #3, a new player **BOD-rated** #1-2 cannot be “picked up.”

Player **BOD ratings** will be revisited/updated just prior to the player draft for the fall/spring seasons.
