

RATING PROCEDURE FOR LOCAL PLAYERS

~~10-10-18~~ ~~7-19-19~~ 6-30-21

PRE-DRAFT:

The full Board will provide a BOD rating for all players: #1 (highest), #2, #3, #4, #5, or #6. The BOD rating may be used as an aid by the managers during the player draft.

For draft purposes, managers will be placed in the round determined by doubling their BOD rating. e.g. a #1-rated manager will be placed in round 2 of the draft, a #2-rated manager in round 4,, and a #6-rated manager in round 12.

DRAFT:

The Draft rating for a full-time (non-manager) player will be determined by the round in which he is drafted e.g. A player drafted in rounds 1 or 2 will be rated a #1, rounds 3 or 4 a #2. . . ., and rounds 11 or 12 a #6.

PICKING UP PLAYERS:

When “picking up” a player for a game, a manager can pick up a player whose Draft rating is equal to or lower than the Draft rating of the missing player. Exception: A #5 can be “picked up” for a #6. e.g. A manager who is missing a player draft-rated a #3 can only pick up a player Draft-rated #3-6. A manager who is missing a player draft-rated a #1 can pick up a player Draft-rated #1-6.

PICKING UP/SUBSTITUTING FOR POST-DRAFT PLAYERS FOR GAMES:

“New Player” is defined as a full-time player coming into the league after the draft has been completed. The BOD rating for all New Players will be set by the Board.

New Player Assigned to a Team to Fill an Unfilled Draft Roster Opening:

The new player’s rating will be set by the Board, and that will be considered his Draft rating. When the new player misses a game, his manager can only “pick up” a Draft-rated #5 or #6 since the new player’s Draft rating is considered a #6 for “pickup” purposes.

New Player Assigned to a Team to Replace a Player Who Left the Team/League:

The new player’s rating will be set by the Board, and that will be considered his Draft rating. When the new player who was added to the team is missing, his manager can only “pick up” another player based on the Draft rating of the player who the new player replaced on the team.

Player BOD ratings will be revisited/updated just prior to the player draft for the fall/spring seasons.
